CLAYTON COLLECTION

Clayton

smoothness

Clayton is a new interpretation of concrete made with the new 3D Ink technology that emphasises the collection's strongly textured appearance. Clayton is offered in a range of neutral and natural colours that follow the latest trends in interior design, for warm and cosy environments: Fabric, Nude, Earth, Iron Smoke and Dark Grey. The six nuances are available in various sizes ranging from 30x60 to 60x60 via 60x120 to the brand new 100x100.

The collection features different surfaces, from the softest mainly for residential use to the most textured for heavy-duty and outdoor use. The result are in&out continuity solutions that are very trendy today.

Clayton

subtly enticing

The collection is completed by white-body wall tiling in the new 33x100 size in Fabric, Nude, Iron, Blue and Green colours. Here, geometric and flowery decorations design walls with a strong visual impact and are taken from the world of fabrics and damasks, reinterpreted in a modern key. Clayton is suitable for designing residential and commercial spaces both indoors and outdoors.
