RICHMOND COLLECTION

Richmond

Strokes

The beauty of Limestone quarried from the seabed of South West England is the inspiration for the Richmond floor collection. This sedimentary rock worked over time by the force of water and currents is reinterpreted by Ragno by combining the most beautiful veining, brought out by 3D INK technology, and the most delicate colour transitions, all developed on 3 different surfaces: R9, R10 and R11C for both outdoor and indoor use with perfect continuity. The Stepwise technology applied to R10B and R11C mixes high slip resistance with a soft touch and easy-to-clean surfaces. The five-colour palette ensures the creation of comfortable environments from a tactile but also visual point of view: ivory, taupe, silver, musk and carbon in the new 100x100 size and the conventional 60x120.

Richmond

delicate colors

The coordinated 33x100 wall cladding contributes to a seamless and homogeneous design in living rooms, bathrooms or bedrooms and is enriched by a wide-ranging decorative proposal: minimal graphics or more romantic decorations still maintain the versatile essence of this stone.
